

Why Everlast™ External Venetian Blinds?

Australia has fallen in love with external venetian blinds! External venetian blinds offer an aesthetic window furnishing which can also add a stylish and architectural look to outdoor living spaces and building exteriors.

The NEW Everlast™ External Venetian Blinds offer a practical and durable product option with a longer-life than traditional external window furnishings. Everlast's™ all aluminium construction and heavy duty stainless steel componentry ensures our external venetian blinds are ideal for Australian conditions. Designed to be both visually elegant and streamlined, Everlast™ External Venetian Blinds add value to both residential or commercial buildings and are built to last!

Everlast™ External Venetian Blinds are available in a range of blade types, sizes and profiles, allowing customers the versatility of many different applications.

Everlast™ Features & Benefits

Everlast™ External Venetian Blinds offer a wide range of features and benefits, unmatched by other external venetian blind systems.

For both residential and commercial applications.

A choice of five blade types, sizes and profiles offering a wide range of external applications.

High grade aluminium construction and high quality componentry ensure a longer product life than traditional blinds.

Lightweight aluminium blinds but still strong and durable.

High grade stainless steel hardware for extra strength and product durability.

Both 90° and optional 180° blade rotation giving you control over the blade position, light entering the space, shading and privacy.

Blades can be raised, lowered or tilted offering either permanent privacy screening, control over views and reduction of external noise.

Effective protection from solar radiation keeping your space cool in summer.

Highly resistant to all weather and temperature variations.

Termite, insect and corrosion resistant ensuring a long life.

A wide range of specially designed high quality polyester paint finishes with customised colour options also available.

A choice of mounting options to match your building/opening type.

A choice of manual and motorised control options for smooth, easy operation.

An extensive Everlast™ External Venetian Blinds Warranty covering aluminium extrusions, polyester paint finishes, hardware and accessories.

NEW Everlast™ External Venetian Blinds Self Supporting System

The NEW Everlast™ External Venetian Blinds Self Supporting System is the perfect solution when:

- standard top mounting brackets cannot be fitted to a lintel or wall.
- the full weight of the blind is to be supported by side guides only.

Offering a strong and stable mounting option, the self-supporting system mounts to a facade or window frame, or another fixed elevation element, with specially designed telescopic brackets which support the entire blind.

Everlast™ Colour Options

Everlast™ External Venetian Blinds are available in a wide range of contemporary colours, all with high quality, polyester paint finishes.
